Hi All.

So I'm thinking it's time to regroup on the Urban Waters process now that the national announcement has been made and we've taken some initial steps at compiling a table of federal actions that are ongoing within the Passaic or neighboring communities. Therefore, please let me know your availability for the rest of this month for an hour call. The only days I can't do are the 12th and 21st .

Thanks and I hope all is well,

Elizabeth
